

We have had some boys in our school. They and Edward Johnson...  
The boys in our school are...  
The boys in our school are...

**Sports**  
On October 2 our seventh and eighth grade soccer teams played football on the Buffalo field. Our boys played a hard fought game but lost 2-0.

Wednesday, October 3 our boys played basketball on our home field. Again they played a good game but lost, 3-0.

The soccer game our variety team played with Belfast, Friday, October 10, did not turn out as well as we hoped it would. Although our boys put up a good fight, they lost the game 5-0.

Burt, of Belfast did all of their scoring with 2 field goals, and 3 penalty kicks. Hoffmann, scored our field goal and Watson kicked the penalty.

Our best game of the season for the variety will be with Stoughton at the A.C.S. field, Thursday, October 13. The Junior High team game scheduled for October 14, will be reported on next week.

**Health News**  
Dr. Ball is now doing his annual examining of the pupils.

**Library News**  
Many new books are now ready to be taken from the library. There are many fiction books such as "The Secret of the Redhead Mountain" by Martin Cull, "The Young Barbarians" by Helen R. Sattley, "Sours for Summa" by Betty Cavanna, "Jonathan Goes West" by Stephen Minahan.

Among the outstanding non-fiction books are the following: "The Telephone in a Changing World" by Charles M. Sheldon, and "Road to Alaska" by Douglas Cox.

**Magnate Sale**  
The annual magnate sale will be held at nine o'clock, Wednesday evening, November 10th. This campaign is put on by the Student Council for the benefit of the school.

**Fire Drills**  
We have completed ten fire drills in school. This is two more than the required amount for this fall. During some of the drills, stairways have been blocked in order to give the students practice in evacuating

of adult women.  
A reception in the church center...  
The reception in the church center...  
The reception in the church center...

For going away Mrs. Ford had a black suit with black accessories and a white rose corsage.

After a motor trip through the western states they will be at home on West Main Street, Angolia.

Guests were present from Laurel, Md., Buffalo, Rochester, Fortville, Danville, Williams, Silver Springs, Warsaw, Cranial, Short Trest and Shaw.

### HOUSEHOLD MEMOS

by Lynn Chambers

### Halloween's the Time for a Party: Plan Your Games for Happy Evening

HALLOWEEN is the ideal when the children like and like mental time for party playing and the games you play should suit the occasion.

Call your grocer for a matchless gift with your party. He will have a complete list of games to find. Do you know what you want to play and what you want to play?

#### Law on Stolen Aircraft

The U. S. government had no law that specifically applied to persons involved in interstate flights of stolen aircraft until September 24, 1945, when the National Motor Vehicle Theft act was amended to cover such cases.

### Beware Coughs from common colds That Hang On

Creomulsion relieves bronchitis because it goes right to the seat of the germ laden phlegm and soothes and loosens it. It is named bronchitis and all infections. Tell your doctor, pharmacist, a bottle of Creomulsion with the understanding you must use the way it quickly silences the cough or you are to have your money back.

**CREOMULSION** for Coughs, Chest Colds, Bronchitis

### Russia's First Railroads Carried 'Church Cars'

For several decades after Russia's first railroad began to operate between St. Petersburg and Moscow in 1851, the trains running on Sunday and holy days carried, on Sunday and holy days carried, for religious services, one or two "church cars" whose special equipment included stained-glass windows and sacred paintings.

For several decades after Russia's first railroad began to operate between St. Petersburg and Moscow in 1851, the trains running on Sunday and holy days carried, for religious services, one or two "church cars" whose special equipment included stained-glass windows and sacred paintings.

### change to CALOX for the tonic effect on your smile

Efficient Calox works two ways: 1. Helps remove film...bring out all the natural luster of your smile. 2. A special ingredient in Calox encourages regular massage...which has a tonic effect on gums...helps make them firm and easy, loose up your smile...with Calox!

GUESS I'LL GO HOME AND GET A BITE OF LUNCH

Vary the Salad With the Meal  
(See recipes below.)

**Salad Parade**

Salads lead the health parade because in them you eat so many fruits and vegetables before they get a chance to lose their vitamins and minerals. All through the ages people have turned to salads because they craved things fresh from garden and orchard. Besides, certain foods are more attractive and appealing served in their raw state, or in salad form. Salads may accompany the main course, and then they are served on a side plate, but alongside the main course. If you want to entertain in a special way, the answer is a salad platter or salad bowl. Use fruit or vegetables as your taste dictates. Don't forget the party or dessert salads which are in a class by themselves. These are full of fruit and even whipped cream, the fairy princesses of the salad world. Serve them for special occasions as a topping to a meal or as a party dish.

**Frozen Banana Salad.**  
(Serves 12 to 15)

- 1 tablespoon lemon juice
  - 1 teaspoon salt
  - 2 tablespoons mayonnaise
  - 2 3-ounce packages of cream cheese
  - 2 tablespoons crushed pineapple
  - 1/4 cup maraschino cherries, cut in quarters
  - 1/2 cup walnut meats, chopped
  - 1 cup cream, whipped
  - 2 ripe bananas
  - Crisp greens
- Add lemon juice and salt to mayonnaise and stir in cheese. Add pineapple, cherries and nuts; fold in cream. Add bananas, cut in cubes. Turn into tray and place in automatic refrigerator. Freeze until firm, then serve sliced on crisp greens.

Here's a pretty salad that may be served either as a special salad or as an accompaniment:

**LYNN CHAMBERS' MENU**

\*Recipe given.

such as escarole, romaine, lettuce, raw spinach, endive, watercress, dandelion greens or celery cabbage. They may be arranged bouquet style or shredded and tossed lightly with an oil and vinegar dressing (sometimes a french dressing) just before serving time.

One or more of the following may be added for variety if you want to tease the palate: Sliced radishes, chopped green pepper, sliced cucumbers, cut celery, sliced stuffed olives, tomato sections, sliced pickle, sliced hard-cooked eggs, rolled anchovies, minced onion, raisins, etc.

Here are some tempting variations for a cole slaw type of salad:

- Plain Cole Slaw:** 4 cups finely shredded cabbage, 1 tablespoon celery seed, 1 cup cooked salad dressing. Optional additions: 1 tablespoon either dill seed or caraway seed or mustard seed.
- Carrot Slaw:** 2 cups grated or shaved carrots, 2 cups cabbage, 1 teaspoon minced onion, 1 cup boiled salad dressing.
- Slaw Deluxe:** 2 cups shredded cabbage, 1 cup diced banana, 1/2 cup chopped peanuts, 2 tablespoons cat-sup and 1 cup boiled salad dressing.
- Pineapple Slaw:** 2 cups shredded cabbage, 1 cup cut, drained pineapple, 1/2 cup boiled salad dressing, 1 tablespoon celery seed and dash of paprika.

**Law on Stolen Aircraft**

The U. S. government had no law that specifically dealt in part of stolen aircraft until the Federal Aeronautics Act of 1940, when the Federal Statute Title 18 was amended to cover such cases.

**Beware Coughs from common colds That Hang On**

Creomulsion is a powerful cough suppressant to help you get rid of the germ laden phlegm that keeps coming back and that makes you feel tired. It contains a special ingredient, a natural extract of the bark of the Creomulsion tree, which has a tonic effect on your system. It will help you get rid of your cough and keep you healthy. It is the only cough suppressant that is guaranteed to have your cough go away.

**NO NEED TO WAIT FOR '48...**

UNIVERSAL is out Front NOW with the **FIRST REALLY NEW CLEANERS**

**LOOK!...**  
"TATTLE-TALE" LIGHT TELLS WHEN DIRT BAG NEEDS EMPTYING

1 tablespoon mayonnaise  
 2 3-ounce packages of cream cheese  
 2 tablespoons crushed pineapple  
 1 cup maraschino cherries, cut in quarters  
 1/2 cup walnut meats, chopped  
 1 cup cream, whipped  
 1 ripe banana

**Crisp greens**  
 Add lemon juice and salt to mayonnaise and stir in cheese. Add pineapple, cherries and nuts; fold in cream. Add bananas, cut in cubes. Turn into tray and place in automatic refrigerator. Freeze until firm, then serve sliced on crisp greens.

Here's a pretty salad that may be served either as a special salad or as an accompaniment.  
**Ginger Ale Pear Salad.**  
 (Serves 2 to 3)  
 2 caraway plain, unflavored gelatin  
 1 No. 2 1/2 size can of pears  
 1/4 cup maraschino cherry juice  
 2 tablespoons sugar  
 1/4 cup lemon juice  
 1/4 cup ginger ale  
 Few drops red coloring  
 1 maraschino cherry

Soften gelatin in 1/4 cup of the cold pear juice drained from can. Bring to a boil 1/4 cup pear syrup and stir in softened gelatin until dissolved. Add maraschino cherry juice, sugar, lemon juice and ginger ale. If a darker color is desired, add a few drops of red coloring. Rinse a shallow pan in cold water; arrange pear halves, cut side up in bottom. Top each with a cherry. Pour gelatin mixture over pears carefully so as not to dislodge pears. Chill until firm. To serve, cut gelatin into squares with a sharp knife and place on lettuce. Serve with desired dressing.

When you're serving a heavy dinner, there's nothing better than a crisp salad just bursting with vegetables. For example, a chef's salad is about the best choice, or perhaps a cold slaw.

A true chef's salad is composed mainly of some of the salad greens

dressing. Optional additions: 1 tablespoon either dill seed or caraway seed or mustard seed.

**Carrot Slaw:** 2 cups grated or shaved carrots, 2 cups cabbage, 1 teaspoon minced onion, 1 cup boiled salad dressing.

**Slaw Deluxe:** 2 cups shredded cabbage, 1 cup sliced banana, 1/2 cup chopped peanuts, 2 tablespoons catsup and 1 cup boiled salad dressing.

**Pineapple Slaw:** 2 cups shredded cabbage, 1 cup cut, drained pineapple, 1/2 cup boiled salad dressing, 1 tablespoon celery seed and dash of paprika.

**Spanish Slaw:** 1 1/2 cups cut cabbage, 1 cup diced tomatoes, 1 cup sliced cucumbers, 1/2 cup chopped green pepper and 1/2 cup of boiled salad dressing.

Two molded salads that may be served as an accompaniment are a pretty addition to the table:  
**Molded Grape Salad.**  
 (Serves 6)  
 1 1/4 tablespoons unflavored gelatin  
 1/2 cup cold water  
 1 cup orange juice  
 1 cup lemon juice  
 1/2 cup sugar  
 1 cup seeded or seedless grapes  
 1/2 cup nuts/raisins

**Lettuce**  
 Soak gelatin in cold water for 5 minutes. Bring juices to a boil, add sugar and gelatin. Cook, and when thick, fold in grapes and nuts. Pour into individual molds and chill until firm. Serve in nests of lettuce.

**Mixed Fruit Salad.**  
 (Serves 6)  
 3 oranges, peeled and diced  
 2 slices canned pineapple, diced, or 1 cup pineapple tidbits  
 1 unpeeled red apple, diced  
 1/2 cup pitted dates, cut into pieces  
 1 cup seeded grapes, cut in half  
 1/2 cup mayonnaise  
 1/2 cup coconut, shredded, if desired

Mix fruit with mayonnaise and chill thoroughly. Serve on shredded lettuce; sprinkle with coconut, if desired.

Revised by Western Newspaper Union.

Serve sliced tomatoes on a bed of lettuce with a dressing to which a few caraway seeds have been added.

You might also like a half avocado dressed with lemon juice served with cubes of fresh orange to which just a suggestion of onion has been added.

Strips of peeled avocado marinated in lemon juice may be effectively combined with sections of grapefruit or orange, strips of pimiento and grated blue cheese and nuts/raisins.

**LYNN SAYS:**  
**Try Old Salad Favorites With New Touches**  
 Watercress is especially good with mayonnaise to which a bit of catsup has been added. Sliced radishes and chopped green pepper are also good additions.  
 Asparagus tips on a big slice of tomato seem tastier when served with a blue cheese dressing. Break up the cheese in french or oil dressing and add enough lemon juice for tartness.

A. F. Randolph of Alfred was a business caller in town Monday. Mrs. Alfred Platt and David of Angelica were callers at Guy Schuyler's Tuesday evening. Clarence Maynard is employed in Hornell. Mr. and Mrs. Leonard Hargraves were in town and Mrs. Frances

Mission Sunday

Through the war years the average man was an optimistic dreamer of a happy world that would follow the wake of destruction. The principles of Christ would then flourish on each brotherly love world project. Now that the post-war world has become a reality, and it is becoming cynically clear that the picture is neither a bright nor a happy one, for civilization seems to have a death-grip on mankind. Countries are wrangling over the control of the most destructive weapons mankind has ever invented. Doubts and suspicion darken not only the minds of individuals but of entire nations. However, through the darkness of the present, there shines one brilliant light. It illuminates the minds of the most cynical, while it puts the fear of God in the irresponsible. This light is the work of the missionaries who are laboring in every part of the world. They have vainly left home and loved ones to bring the knowledge and love of Christ to those who know Him not. On Mission Sunday, October 14, the Catholics of the civilized world have the opportunity to show their appreciation for the work of these unsung heroes. However, because of unsettled conditions, it is in America that these gallant men and women turn for prayers and alms to sustain them in their labors. His Holiness, Pope Pius XII, has said, "America is my comfort and consolation in these sad days. She is the light of the world and star of hope in these dark times. I hope America will continue to support the sorrowful and that she will be ever faithful to her Christian ideals."

PHONE PLANT BUILT AT RECORD PACE IN NEW YORK TERRITORY

Expanding facilities to bring service to about 175,000 in 5-month period. Reading a record-breaking pace in expanding its central office facilities to meet the heavy demand for new service, the New York Telephone Company has in its territory in the five months period from September 9 to the end of January. These, according to a recent announcement by the company, is to bring considerable relief to the 175,000 persons waiting for service at the beginning of this period. In New York City, where the demand is greatest, more than 125,000 of the 250,000 waiting for service are to have telephones in this period. For the city an average of five new exchanges a month are being placed in operation, and many additions are being made to the present dial switching boards. In Upstate territory the major part of the relief to the five months will be accomplished by additions to from 25 to 50 of the existing dial and manual exchanges. Several new dial exchanges will also be placed in service. "With more and more central offices appearing and cable being received from telephone manufacturers," Carl Williams, the company's president, said recently, "we are making substantial progress in reducing the number of people on our waiting list. We've already reduced the number from the peak of 438,714 last March to less than 233,000."

Conservation Calendar October

Conservation Calendar October. Obstructions from Detroit, Empire, Dutch, Ontario, North River. Branches of Rock Bay, Warren and other municipalities should be alerted from diversion outlets. This is just over, the restrictions will impede the flow of water and some sitting in the channel. Lines were visible, may occur, since the soil will be destroyed by the heavy cover.

Leitchworth Park Home Destroyed By Fire

The architecturally, highly supervised home at Leitchworth State Park burned to the ground Friday last as result of a fire believed to have started when a lumber fell upon the roof. Occupied by Park Superintendent and Mrs. Harry Walker, the family managed to save a few household belongings. Firemen from nearby Portageville and Castle responded. The dwelling was located above the middle falls near the dragon monument and was constructed on design of a swiss chalet. Surrogate's Court News

Further notice is hereby given that the Town Board of Wellsville will meet and review the preliminary budget and hold a public hearing at the Town Clerk's office on Monday, October 18, at 7:30 p. m. on the 6th day of November, 1947, and that at such meeting any person may be heard in support of or against the preliminary budget as completed or for or against any item or items therein contained.

Pursuant to section 157 of the Town Law, the proposed salaries of the following town officers are hereby specified as follows:

Supervisor	\$400.00
Justices of the Peace (total)	\$200.00
Assessors (total)	\$100.00
Town Clerk	\$200.00
Collector	\$100.00
Town Supt. of Highways	\$100.00
By Order of The Town Board	
Hugh Brooks, Town Clerk	

Dated: October 14, 1947.

### BUDGET NOTICE

Notice is hereby given that the preliminary budget of the Town of Wellsville for the fiscal year begin-

**CALL TO YACHT AT SEA HELPS END N. Y. STRIKE**

A ship-to-shore telephone call from a union operative in the head of the Huntington Road Company, aboard his yacht in Long Island Sound, recently, was instrumental in ending the five-week strike of \$500 of the company's employees.

This call of Albert J. Fitzgerald, president of the United Electrical, Radio and Machine Workers, CIO, at the union office in New York City, to James H. Rand, president of the company, brought final agreement which was later ratified by the union locals in Syracuse, Elm, Tonawanda, N. Y., and Buffalo Harbor, N. Y.

**A CHAPEL IS PART OF OUR SERVICE**

We maintain a modern, appropriately-appointed Chapel. It's part of our service at Wolcott Funeral Directors.

**Wolcott Funeral Home**  
LADY ASSISTANT

Mr. and Mrs. Lee...  
Mr. and Mrs. Harvey Barton.  
Mrs. Clayton Smith is visiting in St. Mary, Pa.

Recent visitors at the home of Mr. and Mrs. Ralph Jennings were Mr. and Mrs. George Harross of Lewistown.

Mrs. Clara Deming has been a guest of relatives and friends in Home and Pottsville.

By Order of the Town Board  
Town of Waterville  
Lydia McCarty, Town Clerk  
Dated: October 7th, 1947.

**GOLDEN TEXT.** "The preaching of the cross is to them that perish foolishness, but unto us which are saved it is the power of God" (1 Cor. 1:18).

**SERMON.** From the King James version of the Bible (Acts 26:1, 8, 12-14, 19) "Then Agrippa said unto Paul, 'Thou art permitted to speak for thyself.' Then Paul stretched forth the hand, and answered for himself: 'Whereupon as I went to Damascus with authority and commission from the chief priests, at midday, O King, I saw in the way a light from heaven, above the brightness of the sun, shining round about me, and when I had journeyed with my kindred, I was alone speaking unto one, and saying in the Hebrew tongue, Saul, Saul, why persecutest thou me? It is hard for thee to kick against the pricks. . . . But arise, and stand upon thy feet: for I have appeared unto thee for this purpose, to make thee a minister and a witness both of these things which thou hast seen, and of those things in the which I will appear unto thee.'"

Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, include: "Every pang of repentance and suffering, every effort for reform, every good thought and deed, will help us to understand Jesus' statement for us and all its efficacy; but if the sinner continues to pray and repent, on and on, he will have little part in the statement. — In the at-onement with God—for he lacks the practical repentance, which reforms the heart and enables man to do the will of wisdom. . . . Soul of Truth beheld the way—the Christ, or Truth—only when his uncertain sense of right yielded to a spiritual sense, which is always right" (pp. 19, 20).

Mrs. Nora Hieby of Andover has been elected chairman of the Auxiliary to Allegany County American Legion.  
Announcement has been made of the marriage of Miss Mary Congdon of Cuba and Robert Crowley of Belvoir.

### Strawberries for Breakfast

A London man, stopping at a Los Angeles hotel recently had a craving for strawberries for breakfast. But would his prescribed diet permit it? To settle the matter, he ran through a transcontinental-errand telephone call to his wife in the British capital who had his diet list. Smith: He had strawberries for breakfast.

Forty-eight different materials are required to produce a single telephone instrument.

### CALL TO YACHT AT SEA HELPS END N. Y. STRIKE

A ship-to-shore telephone call from a union executive to the head of the Brooklyn Yacht Company, aboard his yacht in Long Island Sound, recently was instrumental in ending the five-week strike of 8,000 of the company's employees.

The call of Albert J. Fitzgerald, president of the United Electric, Radio and Machine Workers, CIO, at the yacht office in New York City, to James H. Rand, president of the company, brought that agreement which was later ratified by the union locals in Syracuse, Ilion, Tonawanda and North Tonawanda, N. Y., and Boston Harbor, Mich.

### THAT 'SAUCER' MYSTERY

An odd-looking assortment of gadgets resembling glass saucers were used periodically along the lowering New York Telephone Company headquarters building in lower Manhattan. These saucers of people who furnished to their work across the Hudson River in that vicinity had been supplied by this equipment, used in testing ultra-wave radio for radio telephone communication.

Suddenly, one morning late last spring, the "saucers" had disappeared. No, it was not another flying saucer mystery. For the equipment had been dismantled and shipped to St. Immacine, in northern Michigan. There they were in purple emergency telephone communication between that community and Mackinac Island, replacing saucer-like devices between those points which had been seriously damaged by low fogs.

An extensive telephone call of one grandchild from their son, a corporal in the U.S. Army in Japan, explained the recent 24th wedding anniversary of a Tanners N. Y., couple.

the track, was repaired and purchased from state funds Mr. Berman obtained.

The Conoverville bridge was built in 1922 for horse-drawn vehicles and takes heavy punishment from modern loaded trucks and motorbuses. Because of the heavy traffic, the big floor planks were end and the wood deteriorated.

**Hamilton College News**

More than 100 entering freshmen at Hamilton College were pledged to the Alpha Kappa Phi Fraternity here as the college began its third academic year this fall. A new recruiting procedure carried on as a part of the freshman release this period made a visit mandatory to each chapter house by each incoming man interested in joining a fraternity before pledging began. This year at Hamilton, 45 per cent of students are affiliated with fraternities. Among those pledged was Alton C. Steggs of Angelica who was pledged to Chi Psi Fraternity.

**Local Lady Purchases Wigwam Club Building**

With the sale to Mrs. Mabel Lewis of the popular Wigwam Club, situated four miles to the north, on the banks of the Genesee River, the one-time popular Wigwam Club, almost 20 years of sociality and delightful cuisine will become a memory to some thirty-five business and professional men of this area. The passing of the Wigwam is deplored, however the prohibitive cost of foodstuffs made its discontinuance a necessity at this time.

## World Council Will Stand Or Fall on Public Opinion

By BAUKHAGE  
News Analyst and Commentator

WASHINGTON—Here are some more notes from a reporter's notebook (of course, reporters don't really carry notebooks—they write on whatever is handy—this is a menu) at the United Nations. Some of the people who are reading this column attended sessions of the United Nations. I think I recognized some of you. It was hard to get in because so many nations felt this session was so important that they brought much larger delegations than ever before. Those "extra" members couldn't sit in the seats reserved for delegates, nor the news people, so they were given seats ordinarily handed out to the public.

For those of you who stayed home and listened to the radio or read the reports in the paper—well, what impression did you get?

Your impression is highly important, as I'll try to point out later. There was, and is this, danger, which Trygve Lie, secretary general of the United Nations, pointed out in a speech which stirred all the delegates who heard it (and you, too, I imagine, if you were listening) who he summarized it afterward over the ABC network.

He said: "...the peoples of the world, and in any governments as well, are shocked, frightened and discouraged to find that those same nations which created the United Nations so openly disagree." He called for a rebirth of the "San Francisco spirit," the spirit which we all felt in those hopeful days when the United Nations was born.

As the hickering and obstructionism increased at the current session and it became clear that confidence in the United Nations was being undermined, the importance of the work of the agencies distributing information concerning the topics discussed by the general assembly, became more and more evident. The reason was this: It became clear

## Urges Food Conservation; New Battle Shakes U.N.

**DIETETICS:**  
**Waste Less**  
Lips that sincerely frame the words "food conservation" will not touch sturdy edibles as meat, poultry and eggs quite so often hereafter.

Charles Luckman, head of President Truman's citizens food committee, opened the widely heralded "waste less" campaign by calling on the American people to cut their consumption of those three items, thereby effecting a conservation of grain for Europe.

At the same time, it was disclosed that stop-gap aid for Europe this winter may run as much as 800 million dollars—220 million more than Mr. Truman had estimated earlier.

### Jam Topics

## Feeding Stimulants To Increase Weight Utilization of Feed Profits From Dosage

Evidence that feeds and stimulants are as effective for livestock and poultry as they are for humans is contained in research, conducted by Washington experiment station. A year ago the experiment station started a feeding trial with four groups of Hereford heifers (six in each group). One group (serving as a control) was fed a basal grain ration consisting of barley, oats, beet pulp, peas and bran.

The other three groups had the same grain ration, with these additions: Lot 2, Fowler's solution (18 grams arsenic trioxide per 1,000 pounds of grain); lot 3, 300 grams of nux vomica per 1,000 pounds of grain; lot 4, 2 pounds thiouracil per 1,000 pounds of grain.

During the first two weeks of feeding, the heifers getting nux vomica (lot 3) gained 2.8 pounds per head daily; those getting Fowler's solution, 2.6 pounds; those getting thiouracil, 2.4 pounds; control animals, only 1.5 pounds. During the following two-week period, nux vomica steers gained 4.1 pounds; Fowler's solution, 3.1; thiouracil, 3; control, 3.

As the weeks went by, the average daily gain for all groups came closer together. Here are the rates of gain for the four groups at the end of 14 weeks: Controls (no

WASHINGTON—Here are some more notes from a reporter's notebook (of course, reporters don't really carry notebooks—they write on whatever is handy—this is a novel) at the United Nations. The United Nations, I think I recognized some of you. It was hard to get in on many sessions but this session was so important that they brought me larger seats than ever before. These "extra" seats were in the aisle reserved for delegates, but the press people, if they were given seats ordinarily handed out to the public, reports in the paper—well, what else?

Your impression is highly important, so I'll try to point out later. There was, and is this, danger, which Thrope Lee, secretary general of the United Nations, pointed out in a speech, which stirred all the delegates who heard it (and you, too, I imagine, if you were listening) when he mentioned it afterward on the ABC network. He said: "The peoples of the world, and in any government as well, are shocked, frightened and dismayed by the fact that these same nations which created the United Nations so openly disagree." He called for a rebirth of the "San Francisco spirit," the spirit which we all felt in those hopeful days when the United Nations was born.

A colleague of mine, a most restrained and thoughtful commentator (Pauline Frederick, with considerable experience here and abroad) told me something which is worth repeating. She was interviewing Eleanor Roosevelt at a luncheon at Hyde Park. Whatever you may think of Mrs. Roosevelt's domestic politics you must know in what high regard she is held as a member of the American delegation to the United Nations.

My colleague asked her if her heart wasn't heavy over the world situation today. I haven't her exact words here, but Mrs. Roosevelt replied in the negative. She said we had expected too much too soon from the United Nations. And then she went on to point out what so many of the delegates have said, namely, that faulty and ineffective as the United Nations may be, it is far better than nothing. How many times have I heard that from even the most cynical of the reporters and observers here!

As the New York Times remarked in a recent editorial, "It cannot be stressed too often that the struggle brought to a head in this session of the general assembly and against the Soviet Union but

**To Increase Weight Utilization of Feed Profits From Dossage**

Evidence that horses and other large animals are effective feed converters has been shown by a series of tests conducted by Washington experimental station.

A year ago the experimental station started a feeding trial with four groups of horses.

The other three groups had the same grain ration, with these additions: Lot 2, Fowler's solution (18 grams arsenic sulphide per 1,000 pounds of grain); lot 3, 5,000 grains of raw vomicin per 1,000 pounds of grain.

During the first two weeks of feeding, the horses getting raw vomicin (lot 3) gained 3.5 pounds per head daily, those getting Fowler's solution, 2.5 pounds; those getting the control, 1.4 pounds.

As the weeks went by, the average daily gain for all groups came closer together. Here are the rates of gain for the four groups at the end of 14 weeks.

Control (the stimulus), 2.35 pounds; Fowler's solution, 2.8 pounds; raw vomicin, 2.7 pounds; Houswell, 2.5 pounds.

The cost of feed per pound of weight gain was lowest in the raw vomicin group. That is, they made better use of feed than the others.

...much has come from the United Nations. And there are reasons to point out what is lacking in the discussion here said, namely, that faulty and ineffective as the United Nations may be, it is better than nothing. There have been many times I heard that even the most critical of the reporters and observers here.

As the New York Times remarked in a recent editorial, "It cannot be stressed too often that the struggle brought to a head in the summer of the general assembly in the Soviet Union but not in the United Nations." The most striking thing, the editorial added, "is the determination of the United States (that means the member nations) to survive."

The strategy announced which appears to promise us the self-organized world of such nations is the friendly and mutually normal nation in which the citizens of the United Nations who speak each other on the common, common in the building which was temporarily housed the committee itself and the general assembly, respectively. That's nothing new to people who have covered congress.

**Imparting of News to Vital to U. N.**

The longer I serve, covering these meetings, the more I realize that the most important of all the elements, not including the delegates themselves, are those which serve to disseminate the news and information concerning the United Nations.

It would be impossible, of course, for enough people to attend the sessions to affect public opinion greatly. But many of the people who do come go back with a message which stirs great interest in the organization in their communities. Proof of this interest was contained in the report of the secretary general, Lya, when he said that information had been sent out and other steps taken in cooperation with a thousand meetings in the past year.

But more important than anything else are the actual reports of news and radio direct from one or the other of the two headquarters, or as a result of the many interviews with members of the permanent secretariat.

Here is what they've done with radio alone:

During the general assembly, the radio divisions of the department of public information will broadcast for 12 hours a day, while during radio communications, were facilities leased by the United Nations, will cover

...major powers before major steps could be taken, is required, the only forum behind the whole idea is the forum of public opinion.

As this is being written, the question of the report of a committee on the tele-communications is being discussed. The plan envisaged by the United Nations who realize the importance of strengthening the opinion-forming force of the organization, are of too grandiose to be practical but they do involve extensive work which the world are all feeling the pinch of poverty and there is a strong move to cut expenses.

A part of the tele-communications plan was a radio network which would disseminate objective world news for all the world. To show you how well the message efforts along these lines already have succeeded, I was told by the radio liaison division that even the Russian reporters who, as you know, work for newspapers which are under a strict censorship, which permit no news which doesn't suit their needs, have begun to ask for licenses issued by the United Nations because they are so fair, an objective that no one would accuse them of continuing propaganda for any one nation.

The men on the staff of the United Nations are not all perfect. There are a number of weak sisters. But on the whole, it is surprising to see how the majority of them has been able to develop a world-wide viewpoint, an attitude whose whole policy is based on world understanding and the perpetuation of peace.

**NEW FIGHT:**

**Recalls Yalta**

In the U. N. another scare about possible future and collapse of that organization arose as the U. N. and Russia plunged into a new struggle.

The issue, which nations shall succeed in forming Poland has represented eastern Europe and the Slav bloc for two years. Russia wants the Ukraine, which, although an integral part of the Soviet Union, has a separate U. N. delegation. U. N. committee is that the Ukraine is not a sovereign nation, therefore does not rate a separate status.

In the background of the whole was the Stalin-Roosevelt Yalta agreement which gave the Soviet Union three votes in the United Nations. Russia proper, the Chinese and White Russia each has one.

How the U. S. S. R. came to get three votes probably happened something like this: Both the Ukraine and White Russia, intensely nationalist, did not like to lose their identities by being merged with greater Russia. The Communists, their antagonists, therefore, as a sop to their nationalism, granted the two territories a sort of nominal independence.

At Yalta, then, Stalin told Roosevelt that he wanted the Chinese and White Russia to be represented in the U. N. for "international reasons." F. D. R., being an old politician and sympathetic with "national" difficulties, agreed.

Thus, the stage was set for one of the most serious battles yet to develop within the United Nations.

...the U. N. has done for the world since World War I, the demand for the type of draft horse was so great...

Percheron exhibited at British Percheron Horse show, Station, Cambridge.

That by 1922 the British Percheron Horse society had been formed to encourage the breeding of Percherons for agricultural work.

The color of the British Percheron is gray or black with little white. Stallions are a minimum of 16 hands, 3 inches tall, with manes allowed 2 inches shorter.

**Keep Them Healthy**

To reduce lamb and sheep losses from dogs and wolves, one trunk barrel placed in holders on top of each fence driven into the ground. Sheep learn to gather near the barrels at night. Wolves and dogs are kept away by the flicker of the flame and the odor.

M DDT fails to control flies around the barn, it's probably because there are manure piles or old strawstack bottoms nearby. These breeding places can burn out. Fly taster that DDT can kill them.

Blackhead turkeys are caused by an organism that is carried by fecal worms. Pneumonia is effective in removing these worms from chickens and turkeys. Many turkey raisers now give pneumonias in the month every three or four weeks to prevent outbreaks of blackhead.

**Farms Use Six Times As Many Tires as City**

The typical Midwestern American farm has six times as many rubber tires on its rolling stock as a non-rubber city-dwelling family, a survey conducted by H. F. Goodwin, secretary of the Rubber Manufacturers Association, is reported in a representative "Agricultural" survey in Illinois, and disclosed an average of 22 passenger rubber tires per farm. From the standpoint of actual rubber volume the farmer's edge is greater.

**SAME AS IN 500 A.D.**

**Pacific Journey Made on Raft**

Dr. Thor Heyerdahl, 23-year-old Norwegian anthropologist and seafarer, had a theory that the first Polynesians were blue-eyed blondes who floated over to their Pacific islands from South America on rafts in about the year 500 A. D.

What he did about proving that theory is history. He and a party of six men built themselves a primitive raft of bamboo and balsa wood, climbed aboard and set themselves adrift at Callao, Peru.

Exactly 103 days later the scientific group drifted ashore on their raft, the Kon-Tiki, at Harris reef in the Tuamotu archipelago, center of their target. They had used no motors, cars or sails. Their only means of propulsion on the 4,300-mile trip had been the Humboldt and South Equatorial currents.

That, said Dr. Heyerdahl as he landed in San Francisco on rails to Norway, provided "indubitable proof" of the veracity of his theory.

"The fact that we made the journey demonstrates it could have been done around 500 A. D., when Polynesians were first populated," he said. "Expert navigators said it couldn't be done, that the balsa wood would sink, that it was impossible, but it wasn't."

He related that the current on which sometimes carried the raft is much as "1 mile a day, sometimes only 3 miles, but that "we always moved westward." The raft was 41 feet long and 11 feet wide—a virtually infinitesimal craft on which to cross the vast sweep of the Pacific.

With true scientific objectivity, the men ate a little of everything that came their way during the course of the journey—fish, small crabs and walrus on the ocean, seaweed and blubber. Plankton was described as a semi-microscopic sea slug, both animal and vegetable, which was "like shrimp paste."

Cost of the expedition, estimated at \$40,000, was financed by Dr. Heyerdahl through funds of his own and by borrowing money.

while farmers have about \$1.09. At the same time, the biggest cause of the wage earners' problem is the sharp rise in the price of food. The average family now pays more than \$1.31 for the same amount of food that a dollar bought a year ago. It also pays \$1.06 for each dollar on rent, \$1.18 to the 1946 dollar for clothing and \$1.23 for miscellaneous expenses.

"This continued divergence between farm and city buying power," the survey pointed out, "indicates that a serious unbalance may threaten the stability of our economy. A balance is essential."

**RECOGNITION:**  
**Playing Safe**

Not as a gesture of approval, but rather as a means of keeping informed of internal developments did the United States grant full diplomatic recognition to the Communist-dominated government of Bulgaria.

Robert A. Lovett, U. S. acting secretary of state, said that the action meant neither that this country approved nor condoned "certain recent actions of the Bulgarian government."

Although he did not say so, Lovett obviously referred to Bulgaria's execution of Nikola Petkov, leader of the opposition to the Communists.

Previously, recognition of the Bulgarian government was withheld on the grounds that the pro-Soviet re-

control, 3. As the weeks went by, the average daily gains for all groups came closer together. Here are the rates of gain for the four groups at the end of 14 weeks: Controls (no stimulant), 2.35 pounds; Fowler's solution, 2.6 pounds; nux vomica, 2.7 pounds; thiouracil, 2.5 pounds.

The cost of feed per pound of weight gain was lowest in the nux vomica group. That is, they made better use of feed than the others.

Death of Frank May Causes Blindness in Even Death

The death of Frank May, who was blind from the time he was born, and the death of a man who was blind from the time he was born, are two cases of a man who was killed by a bomb.

GRANDMA SPEAKIN'...

EXPERIENCE is what you have left when everything else is gone. It said Mrs. Gladys Smith, Angelica, N. Y. ... SEEN IS BELIEVIN'... You see! And when you see those two words "Experience" on a package of margarine, you're sure gettin' as big a spread as money kin buy, 'cus you're gettin' Nu-Maid Margarine... THE SECRET of a happy marriage is to marry a man for what he is, not for the way you think you can change him. ... FOLKS SAY Aunt Susan's got a way with vegetables—her greens are always so good tatin'. Well, just between us, it's all because of the good tatin' seasonin' she uses. Aunt Susan always seasons with Nu-Maid. Yes sir-sir-sir.

The FICTION CORNER

CAROLYN TAYLOR looked at the letter with a frown. It was a letter from Lee, who was blind from the time he was born, and she was blind from the time she was born.

ADVENTURE LIMITED

That letter, as she looked at it, she felt as if she had been struck by a lightning bolt. It was a letter from Lee, who was blind from the time he was born, and she was blind from the time she was born.

Carolyn had to keep reminding herself that it was earth she lived on, not really heaven.

Carolyn sat and stared, helpless to force her gaze away from this changed Lee. What of the distinguished gray at the temples, the impressive look of the scientist that she had pictured! The men at the next table were noticing her concentrated gaze; she finally forced herself to look away.

Few Barred for Throwing Ball Games

Several major league baseball teams are barred from throwing ball games in 1935, as shown by the following list of teams which are barred from throwing ball games in 1935.

Ask Mother, She Knows... Clabber Girl is the baking powder with the balanced double action... Right in the shining light, look the same.

Carolyn sat and stared, helpless to force her gaze away from this changed Lee. What of the distinguished gray at the temples, the impressive look of the scientist that she had pictured!

Carolyn had to keep reminding herself that it was earth she lived on, not really heaven.

Carolyn remembered how honored she had been in breaking the news to her. He would have let their engagement continue, he told her, he might have kept an evening here, he might have kept their prospects deceiving her about their prospects for marriage, putting it off, or promising to marry her at the end of the five years, but he did not consider that the right thing to do. No, it was only the part of a gentleman to tell her that it was best to break off. She was not to feel hurt, there was no other girl, just his career, his put anguish into Carolyn's heart. He put anguish into Carolyn's heart. He put anguish into Carolyn's heart.

Three years later she married Jefferson Taylor, a big, broad West-fever, done in shades of brown. She sometimes felt a slight disdain for Jeff's substantial size, remembering Lee's straggled, unassuming look of one who was used to a practical mind for business that made them enough money to enjoy a pleasantly of luxurious life. She loved Jeff, of herself that she withheld, one section of her heart and mind walled off, that would always belong to Lee.

She never spoke to Jeff of this reservation. Only in secret did Carolyn now and then open the door on that precious might-have-been part of her, and take it out to dream over.

There was the conviction which all her three weeks were the final realization after Lee passed the final examination for his doctor's degree, he was to do the very research work that he must wonder—a unique chance for an unscrupulous man, prepared to do so, at least five years to the product, on the market.

There would be a casual drifting of course. She had it all planned. There would be a casual drifting of course. She had it all planned. There would be a casual drifting of course. She had it all planned.

The adventure proceeds as it acted from a well prepared script. Carolyn chanced into Crofts House at tea time. Two men at a nearby table stared at her with obvious admiration; they were younger faculty members that she did not know.

Then, somehow, without the fanfare of trumpets that would have seemed fitting to her, there was Lee in the doorway. Without glancing around, he went to a table straight ahead. He passed so near to Carolyn

Carolyn sat and stared, helpless to force her gaze away from this changed Lee. What of the distinguished gray at the temples, the impressive look of the scientist that she had pictured!

The men at the next table were noticing her concentrated gaze; she finally forced herself to look away. The next minute, with no more poise than a school girl, she jumped up and hurried away into the next wing of the building to the telegraph blanks.

"Leaving for home tonight instead of next week," she began to write. There was something reassuring about the thought of Jeff's bulk; she was glad that her husband was such a substantial person in every way. Such nice, thick hair, too, and straight shoulders. She had never been as sweet to him as he deserved, but she would make it up from now on. Why, he was the finest person that she had ever known!

Back at their table, the two curious young men continued to speculate after they had watched Carolyn rush from the room.

"Did you see her staring at Johnny Toome as if she were fascinated? If it had been Lee, now, you could understand it—he's a handsome devil."

but he had actually of his own part in the story. From the point of view of her own mind, Carolyn had known that Lee was the man who had loved her.

That belief had never left her. There were days when she would look at Lee and think of the way he had loved her, the way she had loved him, the way they had lived together, the way they had loved each other, the way they had loved life.

She never spoke to Jeff of this reservation. Only in secret did Carolyn now and then open the door on the past, and take it out to dream over.

Lee's reaction to the part Carolyn played in the story was not surprising. He had given up his own part in the story, and he had given up his own part in the story. He had given up his own part in the story, and he had given up his own part in the story.

The situation proceeded as if acted from a well-planned script. Carolyn showed into Carolyn's room at ten o'clock. Two men at a nearby table stared at her with obvious admiration; they were younger, fleshy men, but she did not know them.

Then, somehow, without the fanfare of trumpets that would have greeted him to her, Lee was in the doorway. Without a word he went to a table straight ahead. He passed on to Carolyn.

The next minute, with no more pause than a school girl, she jumped up and hurried away into the next wing of the building to the telegraph block.

"Leaving her home tonight instead of next week," she began to write, about the thought of full a look, she was glad that her husband was such a successful person in every way—a successful person in every way—a successful person in every way.

Each at their table, the two curious young men continued to speculate after they had watched Carolyn rush from the room.

"Did you see her staring at Johnny Towne as if she were fascinated?" If it had been Lee, now, you could understand it—Lee's a handsome devil."

**WHAT AGE IS THE BEST AGE?**

Personality knows no age limits. A developed personality can go on with undimmed lustre as long as life endures. Indeed, the full fruition of a personality seldom comes much before middle-age or older, because it is a long time in building and each successive day adds a bit of charm.

Women famed for their beauty are seldom the very young. Quite often as not they have passed middle-age. Frequently they will be what the world calls old.

Consider Ninon L'Enclos, perhaps the most beautiful and charming woman of history. She was unheard of until she was fifty, yet at eighty she was still sought after by rich and fashionable gentlemen, who could have taken their pick of the court beauties. It wasn't her youth that gave L'Enclos charm. It was her ageless personality. It was her most beautiful and charming achievement of personality in a woman is the career of Elizabeth Browning, wife of the English poet.

Elizabeth was an invalid from childhood, bed-ridden, but illness couldn't quench her spirit nor rob her of her beauty, and the long hours she spent in solitude had enabled her to develop something into her personality that made her ir-

Series B-47

**WHAT AGE IS THE BEST AGE?**  
Personality knows no age limits, and a developed personality can go on with undimmed lustre as long as life endures. Indeed, the fullness of a personality seldom comes much before middle-age or later, because it is a long time in building and each successive day adds a bit of charm.

Women famed for their beauty are seldom the very young. Quits are seldom they have passed often as not they have passed middle-age. Frequently they will be what the world calls old.

Consider Miss L'Enclon, perhaps the most beautiful and charming woman of history. She was unheard of until she was fifty, yet at eighty she was still sought after by rich and fashionable gentlemen, who could have taken their pick of the court beauties. It wasn't her youth that gave L'Enclon charm. It was her ageless personality.

But perhaps the crowning achievement of personality in a woman is the career of Elizabeth Browning, wife of the English poet.

Elizabeth was an invalid from childhood, bed-ridden, but illness couldn't quench her spirit nor rob her of her beauty, and the long hours she spent in solitude had enabled her to develop something into her personality that made her irresistibly beautiful.

Then came young Robert Browning, six years her junior, to fall madly in love with her, and she with him. She was bed-ridden, mind you, but she arose from her sick bed and they strolled into the night and were married.

For sixteen years they passed a life of unbelievable happiness together. And when she died, at the age of 54, with her head on her husband's arm, he wrote the next day that her face was the face of a young girl.

Step by step through the quiet years personality develops. And it is never too late to start or to create one out of what you have, out of what you are. That is the fascinating thing.

Now you can extend your Kem-Tone color scheme throughout the house—from living room to nursery, from bedroom to bath. For ACME now makes paints in glorious colors specially designed to match, harmonize or contrast with your Kem-Tone walls. With the exciting new Acme colors for woodwork, furniture, floors and kitchen and bathroom walls, you can bring all your rooms into glorious color harmony. Acme White Lead & Color Works, Detroit 11, Michigan.

### County Court Houses, Busy Centers In Affairs of N. Y. State Citizens

Landmarks, the Scene of Many History-Making Events, Now Served by Extensive Communication Lines; Handle Numerous Information Calls

The county court house, traditional landmark in affairs of New York state citizens, is a center of numerous county activities within the boundaries of the county. County government offices, which have grown in number and size, now serve numerous county departments. Through the years, too, many history-making civic gatherings have been held in the court houses. All these activities have caused the county court houses to become one of the most important centers of communication and information.

Single telephone systems, some of these handling thousands of calls daily, will traffic steadily growing, a number of the court houses in the larger cities or more populated sections. At the busy switchboards, which serve a particular court or department, or link the numerous gov-

### More Regulations For Used Car Dealers

Motor Vehicle Commissioner Charles J. Flaherty announced that effective October 15 all motor vehicle dealers in New York state will be required to issue a certificate of disclosure covering the sale or transfer of any used motor vehicle.

"Dealer," he said, "must certify that the motor, lights and steering device are mechanically adjusted to comply with the law and are in condition and repair to render satisfactory and adequate service under normal use at the time of delivery."

In order to insure strict compliance, no proofs of sale issued by dealers for used vehicles will be honored for registration purposes unless accompanied by a certificate of adequacy. It is expected that this will prove an added means of increasing safety upon the highways and reduce accidents due to mechanical defects.

### Early Frosts Detrimental To Tomato Crop In Genesee Area

The 1947 tomato crop in Western New York is a "failure," according to officials of two of the state's largest packing plants. Early frosts—coupled with unfavorable planting weather last spring—is blamed for a reduced crop, estimated at 40-50 per cent under the 1946 yield.

The common case reported of temporary insanity was the property case concerning Joseph Chester and wife of 5165, who lost their farm at a tax sale and attempted to regain the same by a fraudulent deed back to themselves. The Chester were fined \$100 each.

### OCTOBER TERM OF COUNTY COURT ADJOURNED WEEK

County judges Ward M. Hopkins, Charles term of County Court, adjourned to have gotten under way last week Monday afternoon from a trial standpoint, as the disposition of a criminal case adjournment was taken until Monday, Oct. 13th, when the Philip Van Dusen case, trouble over which will come up for trial and is expected to take a long time, David L. Schuch of Pittsford will appear for the daughter interested. Other General Cases are:

Charles Karst vs. Flora S. Whitman, breach of contract. Pasquale P. Vancelli, Olson, appears for the plain- tiff and Henwick & Ackerman Caplan for the defendant.

Victor J. Ellsworth vs. Stacy Edmundson, contract. Robert L. Ellsberg, Wellsville, for the plaintiff, and Frank L. D'Arcy, Wellsville

The common case reported of temporary insanity was the property case concerning Joseph Chester and wife of 5165, who lost their farm at a tax sale and attempted to regain the same by a fraudulent deed back to themselves. The Chester were fined \$100 each.

### Class Josh Wightman of Friendship and George Philip Witman of Elchargo were married recently. Plowable Pasture Land For Reseeding

All the cows and all the young stock in New York state can have as much good pasture as they need, all summer long, if that is needed in as good care. All that is needed is a season for pasture crops as must be given to hay crops. There are just a dozen things to do to get good midsummer pasture. They are:

1. Test the soil to see whether it needs lime.
2. Limb a few acres of the most easily plowable pasture land, if it needs liming. Lim it this summer or fall.
3. Spread superphosphated manure this fall or winter. Add to the manure enough superphosphate to make 500 pounds to the acre.
4. Plow the limed manure and superphosphate in next spring, or this fall if it can be done then more conveniently.
5. Sow a temporary summer crop for next summer. Eudan grass is the first choice. Oats is second choice. Millet can be used, but it is less desirable than the others.
6. Apply 200 to 300 pounds of 6-18-6 fertilizer to an acre at seeding time. The resulting temporary

grass or clover as a summer crop and a good temporary pasture crop. Apply 200 to 300 pounds of a 6-18-6 fertilizer mixture at seeding time as was done the year before.

10. Plow the summer crop off early enough to prevent severe competition and injury to the new seedling of grass and clover.

11. Select another few acres each year and repeat. The process until there is enough limed, fertilized and reseeded pasture to supply all the pastures needed throughout the entire summer.

12. When the first area of reseeded pasture begins to run out or become poor, plow and reseed again. Such a rotation of pasture crops should be as beneficial to pasture crops as a similar rotation is to hay crops.

One acre of pasture land treated as suggested will produce more good feed in midsummer of the first year than six acres of average permanent New York pasture and should continue to do so until it is plowed for reseeding the second time.

E. Van Alstine, Cornell University

Miss Catherine Raffaele of Brooklyn and Owen E. Rich, son of Mrs. Winifred Rich of Cananda, were married recently.

Mr. and Mrs. Fred Sloan of Cuba have announced the engagement of their daughter, Sylvia Marie, to Raymond Shear, son of Mr. and Mrs. Ford Shear of Wellsville.

Dr. Robert C. Poole of Olean is the newly elected president of the Western New York District of the New York State Medical Society.

Thursday, October 16 1947

Handwritten notes on a piece of paper, including dates like 'April 1947', 'Feb 18/1947', 'Nov 13/1947', and 'Nov 27/1947', and names like 'A. H. W. R. P. S.' and 'A. H. W. R. P. S.'.

**Now Carved by Extensive Communication Lines Handle Numerous Information Calls**

The county court house, traditional in design by a number of centuries, handles large amount of information, while from time to time the county court handles some of the most modern methods of the day. Through the years, the county court has grown in number and importance. In the early days, the county court was a simple affair, but now it is a complex organization. The county court handles a wide variety of cases, from civil to criminal, and its decisions are final. The county court is the highest court in the county, and its decisions are final. The county court is the highest court in the county, and its decisions are final.

This classic structure of Cayuga County Court House at Auburn, N. Y., built in 1841, contrasts with much larger modern edifices of stone, the Queens County Court House, Jamaica, L. I., shown below.

At Stoughton, the county court operators at Nassau County Court House, Mineola, who handle some 5,500 calls daily. At Stoughton, the county court operators at Nassau County Court House, Mineola, who handle some 5,500 calls daily.

At Stoughton, the county court operators at Nassau County Court House, Mineola, who handle some 5,500 calls daily. At Stoughton, the county court operators at Nassau County Court House, Mineola, who handle some 5,500 calls daily.

**OCTOBER TERM OF COUNTY COURT ADJOURNED WEEK**

The county court adjourned for the week Monday. The court heard several cases, including a case involving a dispute over land. The court also heard a case involving a dispute over a contract. The court adjourned for the week Monday.

**Early Frosts Detrimental To Tomato Crop In Genesee Area**

The 1947 tomato crop in Western New York is a "failure," according to officials of two of the state's largest packing plants. Early frosts coupled with unfavorable planting weather last spring is blamed for a reduced crop, estimated at 40-50 per cent under the 1946 yield.

Harry Cleveland, manager of the Quaker Maid Products Company plant at Brockport, said the yield was "the worst in the 27 years we have operated in the Rochester area." "You might say the crop is a complete failure," he added.

Herbert Apple, Jr., eastern division agricultural manager of the Birds Eye-Scudder Division of General Foods Corporation, said his

**Plowable Pasture Land For Reseeding**

At the close of all the young stock in New York state can have and should have so much good pasture land that is needed to be given for pasture crops as much as good pasture. The county court adjourned for the week Monday.

The classic structure of Cayuga County Court House at Auburn, N. Y., built in 1869, contrasts with much larger modern edifices of stone, the Ontario County Court House, Jamaica, L. I., shown below.

Operators of Nassau County Court House, Hempstead, who handle some 1,500 calls daily.

operator groups, the county telephone operators because articles for solving many information problems.

At the new Nassau County Court House at Hempstead, L. I., the five operators at the switchboard handle an average of 1,500 calls daily to and from all parts of the county. At times the figure approaches 1,800. And among the large number of incoming calls are many requests for information, such as "How do I get a milk and poultry," "Where do I get mortgage money," "Where do I get a car," or "When do I call to have the wheels put down" are common questions. But when the caller wants to talk to "the tall man with blue eyes,"

## ...our costs have gone up, too!

up  
 170%

SOME PEOPLE get along under higher prices by using less or doing without. Some live on more income to help meet higher costs. All can adjust outgo to income, to a large extent.

But a railroad cannot skip or do without and still provide good, efficient and safe service—adequate to the needs and desires of the public.

The chart at left shows why the Eastern Railroads have had to ask for an increase in freight rates. The simple reason is that the increases allowed since 1929 are nowhere near enough to meet today's costs. The revenue

the railroads get for hauling the average ton of freight is only 12% more, whereas the cost of operating the railroads has increased more than 65% in that period.

Only recently, for instance, an authorization board added another \$60,000,000 to our annual bill for wages and freight taxes, of which \$17,000,000 is borne by the Eastern Railroads. This brings the increase in these items alone to more than 75% since 1929.

All the railroads ask is what the law says they should be allowed to have. That means just and reasonable rates. The law says there is to be no public interest in the railroads and efficient railroad transportation.

men of the southwestern... average of 1,500 calls daily to and from all parts of the county. At times the agents approach 5,000. And among the large number of incoming calls, some carry messages for information, some are orders for material, some are orders for mail and printing. "How do I put my name on a list?" "Where do I put my name?" or "When do I call to have my name put down?" are common questions. But when the caller wants to talk to "the tall man with blue eyes,"

where on... State constitution was adopted. These two days later, George Clinton took the oath as first governor of the State. Though the Brooke County Court House at Binghamton is only half a century old, it was the scene of the founding, in 1783, of the first farm bureau in the nation. Many other historic events have taken place in the New York court house.

### Video Fans Get Intimate Glimpse of Dial 'Phone Office in Action

Television close-ups of telephone central office in action, showing the complex network of men, women, machines and wire that makes telephones work, were featured in a show to New York viewers on TV. It was the first of a series of educational programs televised by WGBH-TV of the Columbia Broadcasting System, providing behind-the-scenes glimpses of vital public services. Bill Leonard, manager of operations in the "This is New York" radio show, conducted the program.

It was a visit to one of the largest and busiest dial central offices in the metropolitan area. Leonard, accompanied by interviewers and a group of operators at the telephone switchboard, at the time over the past 15 days, showing equipment, and new equipment.

As battery of video cameras go into action, Bill Leonard (top) speaks for WGBH-TV, New York, chats with dial assistance operators in metropolitan central office.

As the camera flashed in use of the installers at work, he explained that from the time the dial equipment is manufactured and installed there are about 300 soldered connections for each subscriber's line. In putting in a new dial office, he said, as many as 400 to 500 staffers may be on the job.

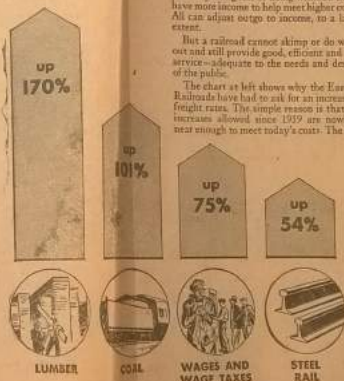

### HOUSE FURNISHINGS

up 81.6%

\*Increase since 1939, from Department of Labor Index for modern income families in large cities, and from National Housing Agency.

## ...our costs have gone up, too!

SOME PEOPLE get along under higher prices by using less or doing without. Some have more income to help meet higher costs. All can adjust outgo to income, to a large extent.

But a railroad cannot skimp or do without and still provide good, efficient and safe service adequate to the needs and desires of the public.

The chart at left shows why the Eastern Railroads have had to ask for an increase in freight rates. The simple reason is that the increases allowed since 1939 are nowhere near enough to meet today's costs. The revenue

the railroads get for hauling the average ton of freight is only 15% more, whereas the cost of operating the railroads has increased more than 63% in that period.

Only recently, for instance, an arbitration board added another \$469,000,000 to our annual bill for wages and wage taxes, of which \$167,000,000 is borne by the Eastern Railroads. This brings the increase in these items alone to more than 75% since 1939.

All the railroads ask is what the law says they should be allowed to have. That means just and reasonable rates. The law says there is need in the public interest for adequate and efficient railway transportation service at the lowest cost consistent with furnishing such service.

In other words, all the railroads ask is sufficient revenue to enable them, under honest, economical and efficient management, to provide the kind of service people want.

Some examples of increased costs since 1939, affecting railroad operation

Increased freight rates since 1939 have increased the revenue from hauling the average ton of freight one mile only 15%
