Girl Scouts Re-organize

A group consisting of the Girl Scouts of the Allegany County, N. Y. held a meeting at the home of Mrs. Mary Dodge on the evening of January 19th. The purpose of the meeting was to re-organize the group. Mrs. Emma Mason was elected chairman and Mrs. Freda Markel, treasurer. Mrs. Margaret, secretary. Mrs. Freda Markel, president. Mrs. Freda Markel, secretary. Mrs. Freda Markel, secretary. Mrs. Freda Markel, secretary.

Frank A. Carpenter Dies

Frank A. Carpenter died Tuesday morning at the home of Mr. and Mrs. Eugene Hill, Trapping town, near Willsville. He was born near Hunt, the son of Henry and Sarah Hall Carpenter. He had formerly lived in Hornell where he was a tannery man and was a member of the Erie Railroad. He retired in 1937 after 49 years of service.

The Angelica Conservation Club

The club conservation program in Allegany County was formed in 1944 and has now increased to 100 members. The club has a membership of 110,000 acres of land.

The club has been the largest in the county and we have to shoot at very often. Also, did you ever hear of a big buck coming toward you or standing towards for you to shoot? (Of course there are many reasons why you should not shoot a deer hunting are exciting and have exciting. Now ask yourself, did you get so excited you didn't know if you took aim or not? Do you know you may have almost back again? Do you know, you may have not aimed either? Or perhaps you might have missed the wrong spot. Now be alone some place and get very excited, thinking a big buck deer is going to run over you. Please let us know by return mail.

Although there has always been an open season on these "deer" it is now a population of 8,000,000 deer and 2,142,000 deer widowers.

These say the high cost of living is the cause. This being a leap year, it would be a help to the hunting shortage would be if the widower would take a winter's vacation and bag this deer.

The blue bird is our New York state bird.

The rose is our flower.

The contrast for cutting wood for the fireplace will be underway now in a short time. "Baldy" Harding wants his help to whistle while they work. At a very high rate, you can't whistle, as there is such a back pressure to pack the blow.

It is the sound. Baldy says that they be so, but there isn't any sound to be heard. He will be around in the next few days.

Letter To the Editor

I fully intended to write you a postcard Merry Christmas and Happy New Year while midway on the New York, but just at that time a four-fingered little girl and his wife slipped through my gun-line, covering my eyes, and somewhere between my whiskers and the bird spot on top of my head, from which point they started, I was in the attention of my law enforcement where they started talking—well—anyhow it's been a rough and tumble "game" and I'm perhaps now I can write a fairly readable letter.

The enclosed check is to pay the subscription for The Advocate for 1948. This was one of my Christmas presents from my son and his wife. Old Santa Claus was particular generous to me this year. I hope to be still "winking around" when 1949 comes in for I am possessed by a persistent desire to be "none of those present" when I visit a Republican President.

I believe in one of my previous letters I suggested the choice of prizes who showed a capacity for getting things done, for accomplishing things instead of shirking those problems. I believe you for voters "stupid". I believe you will agree with me that we have suffered about enough of wasteful "housekeeping", broken promises and "stuffed-shirt" oratory during the past 16 years. So my first choice among the presidential possibilities is our beloved General "Doc" Eisenhower, whose administrative ability coupled with his military knowledge won all objectives in record time. My second choice is Governor Thomas Dewey who seems to be successful in handling all the tough problems encountered in the path of duty. I believe that Dewey will have a solid New York Republican following.

Firemen's Bazaar Next Week

The elaborate week of entertainment is provided by the local firemen for the first night starting Tuesday, January 27th in the Grange Building.

Angelica Home Chapter No. 1 will hold an all show luncheon to apply for the new uniform fund.

A general committee consisting of Paul Simon, Joseph Hegerman, Leonard Brown, and Merrill Chase is arranging the details but the whole program will be held to take whole party in the shop.

There will be a considerable and other books and displays. The letter will open Tuesday night with a pot dance. Free cash prizes will be awarded the winners in the following classification: 1. Best exhibited by a girl. 2. The boy who exhibited the most original costume. 3. The girl in the most original costume. and the child who exhibited the best of any year getting the 5th prize.

Wednesday night will be Grange night with a large number of participants from both the local and all nearby chapters. A pot dance supper will start the evening and the title will be an old fashioned square dance contest with a prize awarded to the best couple on the floor during the evening.

A radio quiz show will be the attraction Tuesday night with all local people participating. Friday night will be High School night with a musical program. A Community Auction will bring the week to a close on Saturday evening.

There were fifteen in attendance. Mrs. Ethelda Ayer is the recently appointed publicity director.

Girl Scouts Re-organize

A troop committee meeting was held Monday evening at the home of Mrs. Mary Dodge for the purpose of reorganizing the Girl Scouts in Angelica. Mrs. Beatie Maxson was appointed chairman and Mrs. Frances Barker, treasurer, Mrs. Janet Haggstrom, secretary, Mrs. Janet Farrum, leader and Mrs. Doris Feldbauer, assistant leader.

A Bake Sale was planned for Saturday, January 31st, at the Boarding Restaurant. Anyone wishing to contribute baked goods for this sale may call Mrs. Maxson or Mrs. Haggstrom.

Girl Scouts have no drive for funds; it is a self sustaining organization and deserves the backing of religious groups, women's clubs and individuals.

The girl scout movement has always been recognized as a way of developing good citizens, it welcomes all girls regardless of race, creed or color, provides an ideal framework in which to learn and practice democracy, for it understands and respects the rights and beliefs of others. If there are any girls who wish to join, contact Mrs. Janet Farrum or Mrs. Doris Feldbauer.

Frank A. Carpenter Dies

Frank A. Carpenter died Tuesday morning at the home of Mr. and Mrs. Hagns Hill, Trapping Street, near Wadsworth. He was born in Hunts, the son of Henry and Sarah Hill Carpenter. He had formerly lived in Hornell where he was a tradesman on the Allegany Division of the Erie Railroad. He returned to this town after an absence of nearly a year service in the P. O. in 1944. Masonic services were held at the Crane Funeral Home in Hornell Wednesday evening, after which, Thursday morning, the body was taken to the Hill home where services were held Friday at 2:00 p. m. with R. G. Shady Hill officiating. Burial was made in Woodlawn Cemetery. Mr. Carpenter is survived by a wife, Mrs. Mahle Carpenter, Wadsworth, a sister, Miss Eva Carpenter, and a brother, Monroe G. Carpenter, Owings, Md. Mrs. Carpenter and Mrs. Ella Crandall are also survivors.

might have closed his eyes. Now he alone some place down the road, thinking a big deer is going to run over you. I don't shoot him for a second, and see if this is the reason you missed him. Please let us know by return mail. Although there has always been an open season on these "deer", U. S. statistics show a population of 5,700,000 deer widows and 2,143,000 deer widows. They say the high cost of living is the cause. This being a leap year, it would be a help to the widows would take a hunter's vacation and bag this deer game.

The blue bird is our New York State bird.

The rose is our flower. The contrast for cutting wood for the fireplace will be underway shortly in a short time. "Baldy" Harding says he wants his help to whistle while they work. At a very high altitude, you can't whistle, as there is no back pressure to pack the blow to make the sound. Baldy says that if you be so, there isn't any sound. If you have any questions, call him in person or call him phone 249, and he will give you all the necessary details.

The club is lucky to have two members: Roland Gellman and Joe Harding, Jr. These two men represent their own company—the Western New York timber and wood cutting company. They will be on the job and show you many tricks with their speed and efficient high power saws. They sure are good, come up and see them work.

For the year ending June 30, 1945, the American Red Cross made 150,000 doughnuts for the service-men, another very good place our "dough" went.

At the last regular meeting I got around of the club to ask the interested public for a few words that would be appropriate to put over our doors at the new club house. A public like sign, similar to this, "Who enters here, friendship best, will not regret the time they spent."

women from my son and his wife. Old Santa Claus was particularly generous to me this year. I hope to be still "stickin' around" when 1946 comes in for I am possessed by a persistent desire to be "one of those present" when we elect a Republican President.

I believe in one of my previous letters I suggested the choice of a man who showed a capacity for getting things done, for accomplishment, man who attack and settle problems instead of shelving them for future "study". I believe you will agree with me that we have endured about enough of wasteful "boondoggling", broken promises and "stuffed-shirt oratory" during the past 16 years. So my first choice among the presidential possibilities is our beloved General "Ike" Eisenhower, whose administrative ability coupled with his military knowledge was all objectives in record time. My second choice is Governor Thomas Dewey who seems to be successful in handling all tough problems encountered in his path of duty. I believe that Dewey will be our next President. I still my first choice is "General Ike."

I have enjoyed reading the weekly stories of the progress by the Angelina Conservation Club. And up to date I don't know whether to use the word "he" or "she" when referring to "him" or "her". He or she certainly should put a "by-line" at the top of his or her writings. Good night. I'll be seeing you sometime later. I hope.

Mrs. J. McTarnaghan Dies

Mrs. James A. McTarnaghan died in the Nunda Hospital Monday following a week's illness. Her husband died in December, 1947.

Mrs. Jessie White McTarnaghan was born in February, 1883, the daughter of Henry White and Adeline d'Autremont White and attended Wilsonian High School here and was graduated from the Angelica Teacher's Training Class. She taught in rural schools until her marriage. She has made her home in Portageville, where she was active in church and Grange work. She is survived by a son, Robert McTarnaghan and two brothers, Harry White of Angelica and Charles White of Rochester.

The body was brought to the Wolcott Funeral Home in Angelica and was taken to the Hunts Beggs Church, where funeral services were held Thursday of this week at 2:00 p. m.

Progress Club

The Progress Club will continue their study of Inter-racial Understanding at their next regular meeting at the home of Mrs. Clair Evans January 23rd, when Mrs. Carolyne Smith and Mrs. Walter Lilly will discuss China, Japan and Korea. Mrs. Frank Coombs and Miss Bernice Barber will have the surprise feature while the music committee, Mrs. Katherine Palmer and Miss Ruth Hoffman will supply musical numbers. The response to roll call is "Contributions of Women of the Orient."

Better start looking around for those two or three hundred dollars worth of hunting togs, clean them, or some of your outfit you will want to store away until next fall. Turpentine is very good to pour in cracks and corners of boxes or what have you to store your heavy togs in. Turpentine will keep away moths, etc. Those togs are worth saving, remember, you belong to a conservation club now.

Hog Mange Causes Average Loss of \$2

New Insecticide Proves Effective in Control

Common mange of hogs is another widespread disease that has yielded to the results of animal health research. The U. S. department of agriculture says the average losses from mange probably amount to \$2 a head. This figure covers the loss from stunted growth, delay in fattening, occasional deaths and dockage when many hogs are marketed.

The effective weapon against mange is benzene hexachloride, frequently referred to as "666." In Nebraska tests this newly-discovered insecticide was so effective that it eradicated mange with one treatment. Not only did it eradicate mange — it also got rid of ticks. This makes the old mange treatments obsolete.

In the Nebraska tests, crude benzene hexachloride (a wettable powder) was mixed with wettable powder in 100 gallons sprayed on the hogs.

One objectionable feature of crude benzene hexachloride is its terrific odor. This odor is to any marked degree reduced by the use of a special hog oil prepared in a solvent which takes the greasy odor of the crude benzene and leaves behind the disagreeable odor.

everybody's way out in...
 Certainly there is no gloom exuding from the White House. Sure, said the President to us at a recent press-radio conference, the Democrats were going to have a happy New Year, he already was. And stretching back for a long time, the presidential news conferences have

Likewise, each hopeful favorite son finds something to cheer him. But the canny observers are placing no bets yet, and those who had their money down have had to do very little hedging. There is only one thing certain and that is: It's going to be a grand show.

The Noble Horse

The year 1947 ended with a new sea serpent story which you undoubtedly read about. I mention it, because I myself saw a strange and terrifying beast as I walked to work one late December morning, and I believe the two tales worthy of repetition.

As to the sea serpent: The Associated Press carried a signed story by the master of the steamship Santa Clara, J. Fordan, in which he described the monster sighted in the Atlantic 118 miles due east of Cape Lookout. He named the first and third mates and the navigation officer as witnesses.

According to their testimony, the monster's snake-like head was about two and one-half feet long, there was about 35 feet of cylindrical body some three feet in diameter visible. The water about the beast was stained red and the animal was thrashing around in apparent agony, causing the skipper to believe that the ship had cut it in two. The beast's skin was "brown, slick and smooth, there were no protuberances, fins or hair on the head, neck or visible parts of the body."

That's the skipper's story. Mine is equally terrifying. I actually saw in the early morning, moving down New Hampshire avenue, a huge creature, whose body, like the skipper's sea serpent, was without fins or protuberances, but unlike it, was covered with hair. The head was more than two feet long, the barrel-shaped body was sup-

Glory, Jest And Riddles

I submit the following as an IQ test to my readers. The answers will not be found on the following page:

Can you tell a cormorant from a water turkey when they are so far away they look no bigger than a fly in custard pie?

Did you ever see a loon trying to walk?

Did you know that between Christmas and New Year's Day, roosters crow, cows moo, horses whinny in the night, when otherwise they would be asleep?

Do you know they DON'T?

Can you tell by the feel on the line whether you have a catfish or a lazy trout on your hook?

Do you know where to scrape the deepest hole in the ground when you have to roll up in your blanket and sleep al fresco?

Would you rather spend a night in a rain-storm in a pup tent if you were camped in a pine forest, or crawl under the lowest branches, matted on a hundred years of pine needles, rolled up in a shelter-half?

Could you plow the corners better with an old-fashioned plow or a new-fashioned tractor?

primary to relieve the small payer.

In a phrase certain to be taken with relief by Democratic opponents during the coming campaign, President said he wants to see revenue collections where they are and still help those who need to "buy the necessities of life."

Supplementing the tax program he called for a 75-cent-per-hour minimum wage, representing a 10 per cent increase over the present 67-cent minimum. Although in the past he has favored raising the national minimum wage, the 75-cent figure was the highest flat demand he has made.

General tone of the president's message to the joint session was most observers to believe that he was swinging his administration back to "a little left of center," a point which generally is identified with New Deal philosophies.

Some saw in the speech a veiled message to the left-wing liberal vote that Henry Wallace's third party is threatening to pull away from the Democrats.

Republican reaction to Mr. Truman's speech was bitter and intense, and the G.O.P. went ahead determinedly with its own tax reduction bill.

KNOCKOUT:

Brazil
 Brazil, which severed diplomatic relations with Russia in a huff in October, now has administered what looks like the coup de grace. Red activity within its own borders.

It came in the form of a lightning signed amid great furor by President Enrico Dutra, virtually abolishing every vestige of Communist action in Brazil by removing all Communists from elective positions throughout the nation, including congressmen.

The process of outlawing the Reds was far from a calm one, marked at times by dramatic displays of Latin American verve and temper.

Outside the building private citizens changed blows. Leftist crowds shouted vengeance on the deputies and police sirens screamed through downtown Rio de Janeiro.

It was, by and large, the most turbulent legislative session ever held in Brazil.

Other nations could take an object lesson from Brazil's achievement. Communists can be frozen out of government activity even though the process may be noisy and painful.

THIRD FORCE: Socialism?

Latest voice from among the less potent nations of the globe to rise in protest of the cold battle between Russia and the U. S. was that of Leon Blum, French Socialist leader and short-time premier of France.

He called for a "third force of the world" to stand between the Big Two, even as such a middle group has stood between the Communists and DeGaulists in France.

Blum said the international third force would oppose American capitalism and expansion as well as Russian imperialism and extinction of human rights. That force, he proposed, ought to be headed by France and Great Britain.

Blum was espousing on a worldwide basis an old and eminently workable theory — the balance of power. While Russia and America are battling it out on fairly even terms, Blum would have the two lesser nations step in to take control of the slight power balance that is left over and thus possibly be able to steer a course more to their liking.

Between Russia and the U. S., said Blum, "there is room for nations which want at the same time

The head was more than two feet long, the barrel-shaped body was supported on four long legs which made the creature higher when it threw up its head, much higher than a man.

Its feet were not large compared to the great, powerful body, and they terminated in a great claw, or nail-like substance, which would give the creature terrible weapons of offense or defense. The teeth were large and blunt, and the mouth, though not large, plainly could inflict damaging wounds.

Human beings looked piny beside this creature which appeared as out of place on a Washington city street as a hippopotamus or an elephant.

Strangely enough, it did not cause any great commotion except among the younger people who stared in wonder, obviously never having seen anything like it, except in picture books. It did pose considerable problems for motorized traffic. Horns honked, drivers jittered, back-seat orders thundered.

Finally the monster turned off the street and went up an alley. That was a great relief to me. I knew what it was. I had even ridden one when I was in the artillery, and later, but it was a shock to see a real live EQUUS CABALLUS in a city street.

WET AND DRY

Factions Fight Over Statistics

Those irreconcilable enemies, the wet and dry forces in the U. S., fought out the legal liquor question in 789 local option elections in 21 states last year, then went at each other hammer and tongs in a battle of statistics.

Distilling industry spokesmen claimed that 1947 brought "the first wet gains since repeal."

Prohibition groups countered that the past 12 months produced new victories for their campaign to dry up the country by taking one community at a time.

Outcome of the statistical fight may never be clearly defined because the wets used population figures to back up their claims while the dries counted geographical

areas and population figures to back up their claims.

Brazil, which severed diplomatic relations with Russia in a half-dozen days in October, now has administration that looks like the coup de grace Red activity within its own borders.

It came in the form of a lightning signed amid great furor by President Enrico Dutra, virtually abolishing every vestige of Communist action in Brazil by removing all Communists from elective positions throughout the nation, including congressmen.

The process of outlawing the Reds was far from a calm one, marked at times by dramatic displays of Latin American verve and temper.

Fist fights broke out frequently on the floor of the chamber of deputies and at one point during the debate the session was suspended temporarily when three deputies pulled guns from their pockets and waved

them, even as such a mass group has stood between the Communists and DeGaullists in France.

Blum said the international third force would oppose American capitalism and expansion as well as Russian imperialism and extinction of human rights. That force, he proposed, ought to be headed by France and Great Britain.

Between Russia and the U. S., said Blum, "there is room for national personal liberty and collective economy, democracy and social justice." It was another plea for a middle course, and to Blum a middle course meant Socialism.

And so on—you've heard the story before from many optimistic lips.

If the Democratic tepid exudes joy, the Taft wigwag shakes with cheery mirth. Reasons are obvious. In a nutshell, Republicans say: The issue is left and right. The left is split. And so the rooster crows triumphantly without waiting for November dawn.

He proposed a combination recruiting-and-raising device that most likely has no chance of passage in the Republican dominated congress but one that sounds good to a lot of voters.

His plan, embodying tax-relief to the "little man," would give each individual taxpayer an immediate \$40 tax cut for himself and for each dependent. To offset that reduction in federal income he proposed that corporation taxes be raised by \$1.3 billion dollars.

Mr. Truman presented the proposal as a "cost of living" credit designed primarily to relieve the small taxpayer.

In a phrase certain to be taken with relish by Democratic circles during the coming campaign, President said he wants to see revenue collections where they are and still help those who need it to "buy the necessities of life."

Supplementing the general proposal was a 75-cent-per-hour minimum wage, representing a 10 per cent increase over the present \$1.75 minimum. Although the proposal has favored raising the minimum wage, the "cost of living" was the highest flat demand he has made.

Russ Van Hosen was late but feel-
 ing good, with the check from an-
 other car sale tucked in his pocket.
 He walked in at the back door. Pat
 was stirring something at the sup-
 perboard. She heard him, but didn't
 glance around.

Russ squeezed her shoulders and
 kissed her, then waited hopefully.
 Pat didn't respond. After a minute
 Russ turned away and walked on
 into the living room. So Pat was
 still sore. Well, one thing was cer-
 tain; the next peace move would
 have to come from her.

He sat down and reached for the
 sport page. Golf was opening at the
 Wyanonia Sunday. Well, they prob-
 ably wouldn't go now; they prob-
 ably wouldn't go anywhere. Lately, it
 seemed, they'd been quarreling all
 the time.

It had begun this time as usual,
 with a quick sizzling flash of Pat's
 Irish temper. One of those brief
 flash-ups which usually ended with
 little damage done. Only this one
 hadn't ended yet; it was still drag-
 ging on. Well, let it drag!

Maybe by the time it was over
 Pat would have learned to keep that
 streak of fighting Irish temper
 down.

Pat came in from the kitchen,
 "Russ Van Hosen," she said
 sharply, "put that paper down!"
 "All right." Russ knew what Pat
 wanted — to carry on from where
 they stopped last night.

"I want to know," Pat said tight-
 ly, "just why you left the party with
 that Gertrude Hale last night!"

Russ' jaw grew stubborn. "I told
 you: I went out to start her car,
 that's all."

"It certainly took you a good long
 time . . . Where was her husband
 — why didn't she have him start it?"

"I don't know — he was some-
 where around, I guess. Anyway, I

 if you want to know."

A little snarl went through Russ'
 heart. "Simply because of Gertrude
 Hale?"

"Not entirely. . . . Russ, we can-
 ply can't go on fighting all the
 time."

"You know," Russ said evenly,
 "I've been thinking that way
 thing."

Pat's lips whitened again. "It's
 that's settled. . . . I'll need some
 money," she said.

Russ took out his billfold. It had
 three fives and a ten. He offered
 her the bills. Without looking at
 them Pat shook her head.

"That's not enough," she said.
 "I'm taking the next plane at the
 airport."

Russ was sure now that she was
 stalling, giving him a chance to

Russ swallowed against the pain
 of looking in his throat. What a fool
 he was — as if every couple didn't
 have Gams during their first year.
 Maybe even now, if he should
 call the airport—

The clock struck ten, booming
 through the awful emptiness of the
 house. Russ grabbed the phone; the
 plate left at ten. Feverishly he
 dialed the number. "Airport. . . .
 Listen, has the plane — it's gone?"

The silence of the house beat
 against his ears. He couldn't stand
 it here; he had to get out, do some-
 thing. Russ started for the front
 door, then remembered it was rain-
 ing. His raincoat was in the closet
 off the kitchen door.

The closet was dark; his search-
 ing arm knocked down a package
 a long package that clinked as it
 fell. He dragged it into the light

 Taking the car check from his pocket, he endorsed it with his pen.
 "This is on Conway & Company," he said; "you can cash it any time in the state."
 Pat's cheeks went fiery red. "You mean you had it cashed?"
 "Yes," Russ said, "I had it cashed at Kirke's Sport Shop, Chicago. It contained a set of perfectly matched fangs."
 So that was it! That was why she had had Kirk stop there. To get a present—for him. All these months, Pat had been scripping on her clothes, pinching, armpits—
 "What a heel—WHAT A HEEL—be he!"
 "Russ said nothing." Pat stamped her foot, and it shook two bright stars out on her cheeks. "Russ Van Hosen, I COULD MURDER YOU!"
 "Honey," Russ gasped. "Honey—girl!"
 "Don't honey me! For a half hour you've let me sit out there in the drive. In the rain! Waiting... . That you wouldn't. Oh, how I hate you! Instead you waited until I had to give in myself—humbly begging—" Suddenly Pat's voice broke. Her arms went around him.
 "Oh, Russ, I don't care what you did. But say you love me—that you'll always love me!... Because, I love you so!"
 Russ didn't answer; he didn't want to answer. All he wanted was the assuring feel of her in his arms.
 "Russ," Pat was sobbing, "even while we were quarreling I loved you. If you could only forgive that streak of Irish in me—"
 "I can," Russ said humbly, "if you can overlook a streak of stubborn Dutch."

The FICTION Corner

Russ Van Hosen was late but feeling good, with the check from another car sale tucked in his pocket. He walked in at the back door. Pat was staring something at the cupboard. She heard him, but didn't glance around.

Russ squeezed her shoulders and kissed her, then waited hopefully. Pat didn't respond. After a minute Russ turned away and walked on into the living room. She Pat was still there. Well, one thing was certain; the next peace move would have to come from her.

He sat down and reached for the sport page. God was opening at the Wyconda Sunday. Well, they probably wouldn't go now; they probably wouldn't go anywhere. Late, it seemed, they'd been quarreling all the time.

STREAK OF IRISH

"Right," he said, "why should I be going back to school? If you want to know, I'm going back to school."

Russ swallowed against the pain of looking in his throat. What a fool he thought. He thought their little spots had multiplied — as if every couple didn't have them during their first year.

When We Work With God

Lesson for January 23, 1948

DR. E. STANLEY JONES was in Atlanta on one of his several visits, and some of us were asking him about his notable and unique experience as a missionary in the Orient.

Dr. Newton as a flash of lightning he replied: "If I had a thousand lives to give, they would all gladly go to the wistful souls of Asia."

Shoes Require Special Care in Wet Weather

Shoes often suffer from wet weather. Once soaked they may never look as well or fit as comfortably unless they are properly dried and cared for.

Extension clothing specialists say that wet shoes should be taken off as soon as possible. Leather is weak when it's wet. Wearing wet shoes may pull them out of shape and cause breaks and other damage. Wet shoes should be stuffed with soft paper or absorbent cotton to take up moisture. Never use tannin shoe trees because they may stretch the leather out of shape. Instead of drying the outside of shoes by rubbing, which may roughen the leather, pat with a soft cloth. When the inside moisture is absorbed, remove the stuffing and let the shoes dry slowly away from the heat. Fast drying with heat makes leather shrink, harden or crack.

As the shoes dry, clean them with saddle soap. Follow this with a little sulfonated castor oil rubbed in by hand. This treatment keeps leather soft and pliable. Work or play shoes that do not need polishing may be softened and made to resist moisture by rubbing them with beeswax, tallow, wool grease or petroleum jelly. Well-oiled shoes not only turn out moisture but also last longer. Outdoor work or children's shoes may be softened after getting wet by rubbing them with warm—not hot—beal's foot oil, castor oil or tallow.

Leather soles can be made moisture resistant by setting the shoes in a pan of just enough warm oil to cover the soles. Let them stand in this 15 minutes, taking care not to get the heels in the oil, for oil rots rubber.

 Wellsville Reporter.

Gardner is charged with striking
 his mother-in-law, Mrs. Genevieve
 Daley, and Mrs. Marion Woodard
 with a meat cleaver early Monday
 morning.

Police Chief Eric Roeske said that
 Gardner and his wife were involved
 in a family argument and Mrs.
 Gardner called her mother to come
 to the Gardner home at 49 Seneca
 street. When she arrived, accom-
 panied by Mrs. Woodard, Chief
 Roeske said Gardner met them at
 the door and struck Mrs. Daley in
 the head with the cleaver.

He then struck Mrs. Woodard and
 is reported to have taken the instru-

General

On Thursday January 11, Miss Sylvia S. Foster, supervisor of school lunch program, was addressing our school lunch program in action.

Later on in the day she conferred with Mr. Haggren and the cafeteria workers. She was very interested in the program and had great praise for the men with which so many people were involved. On the average 100 people eat at the cafeteria daily. The big problem at present is to make sure that each child gets a hot meal.

Miss Foster thought that our school was accomplishing a great deal with our cafeteria. Although we are handicapped for space, she thought everything went along smoothly. She also commented on the fine attitude, conduct and spirit of our students.

We would like to have Miss Foster visit us again.

The menu for January 24-25 is as follows:

Monday, chicken soup.
Tuesday, potato salad.
Wednesday, beef vegetable stew.
Thursday, tomato soup.

GOOD LEADERSHIP AND PLANNING ARE MAIN FACTORS IN A REVISED RURAL ECONOMY.

SMALL TOWNS, U.S.A. Rural Planning Must Emphasize Restored Soil, New Employment

Restoration of the soil and introduction of new types of employment are major factors in revitalizing rural economy to meet the challenge of the changing times. The growing necessity for sound rural economic planning is apparent in small towns and agricultural America, faced as they are by revolutionary changes in the pattern of living. The times require evidence that most rural living problems can be solved. Tapping this evidence, which has been accumulating for several years, shows the solutions can be accomplished by simple, home-devised plans.

Rural economic problems ordinarily come from limitations in earning opportunities.

The earnings get lean when the land is allowed to wear out and other employment in the neighborhood is limited. Therefore, the solution lies in restoring productivity of the soil and in providing new kinds of employment. Both these things can be done with good leadership and good planning.

Old and New Cookie Favorites Rank High For Snack Purposes

Do you like to have people stopping in just to be neighborly? Do you have youngsters who bring their friends home often? Then, you will want to have the cookie jar well stocked at all times with old favorites and new.

A cup of hot chocolate and a cookie mean something to many youngsters especially when they are hungry and need something to eat. It also means something special to your own friends who may just happen to drop in to cheer in this way.

It's easy to have cookies on hand if you select those that are quick to fix and easy to keep. You'll find it not easier about inviting people in if there's always a snack or two ready.

In view of the prevailing high cost of butter and shortenings, the cookie baker must be careful to select recipes that spare these precious products.

Nut Macaroons. (Makes 3½ dozen)
4 egg whites
¼ teaspoon salt
1 teaspoon almond extract
¼ teaspoon vanilla
¾ cup sugar
3 cups cornflakes, slightly crushed
1 cup pecans, coarsely chopped
1 cup coconut

Add salt to whites and beat to coarse foam. Add flavorings. Add sugar by one tablespoon proportion, continuing beating until liquid is stiff and glossy. Fold in pecans.

Oatmeal Crunchies. (Makes 30)
¼ cup shortening
1 cup brown sugar
1 egg, well beaten
1 cup flour
1 teaspoon baking powder
¼ teaspoon soda
½ teaspoon salt
1 cup rolled oats
½ cup chopped pecans

Cream sugar, shortening and egg. Beat until well blended. Sift together dry ingredients and add to first mixture. Fold in oats and nuts. Roll dough into small balls and place on a slightly greased baking sheet. Flatten balls slightly and bake in an oven set at 400 degrees for about 10 minutes.

Restoration of the soil and introduction of new types of equipment are major factors in revitalizing rural economy. The challenge of sound rural economic planning is apparent in small farm and agricultural America, faced as they are by revolutionary changes in the pattern of living. The times things the people make and grow. The school has a demonstration farm, a large for iron work, looms for weavers and benches for wood carvers.

Develop New Skills. Brasstown wood carvings are known wherever there is a market of the best carvers taught in the school have earned as much as \$1,300 in one year by their spare-time skills. But the land is first and preserve it. "Do not neglect your farm. Carving is for spare time and the school people give often, and with emphasis."

It should be made clear that the John C. Campbell program is more than the teaching of skills and methods. It is a program of ideas and attitudes. The school has made Brasstown land that means the eyes and pride of its culture and its people, and proud of the land. It has given the people an "appreciation" of what they have and are.

Moreover, it has made them community conscious, with some very practical results. Through study and leadership the school has developed a keen response to cooperative ideas. This has grown into a thriving producers-consumers' cooperative store, operating a retail business and a producing milk plant.

Work of Individual. For this example of how to organize and guide a community living program, not only Brasstown, but the entire rural life movement is under a lasting obligation to Mrs. Campbell. She did her work largely unaided and with only the experience of the Danes to go by. The results achieved have been the product of her vision, personality and determination. A part of the school's support comes from the home missions of the Presbyterian church (North) and the American Missionary association, but the greatest share of the going expenses is raised by Mrs. Campbell's own efforts.

provide examples for others to imitate. One of the earliest and most highly regarded rural community movements is in the southern mountains of Brainerd, N. C. There the soil has been saved and returned to fertility, and some small industries have been introduced to prevent the usual opportunities to waste.

Model Rural Community.
Brainerd is a model in the rural life movement. It has shown that the home and the home surroundings are the most important things in happy living. High wages are not essential if there are better conditions. Happiness cannot be bought with money. All is well when there are jobs for all, if the work is pleasant and the home is secure.

Brainerd is a folk center. It is the home of a school of rural living, which has become the influence that shapes and guides the life of the entire community. This is the John C. Campbell Folk school, established to be a permanent and useful institution to a devoted worker who spent his life as a teacher of mountain people. The school is the work of Mrs. John C. Campbell, widow of the man for whom it was named.

This school is like nothing else in the U. S. Its method was the folk schools of Denmark, and Danish rural school ideas have been adapted to the needs of the Brainerd community.

The school has more than three thousand students. It is the voice and spirit of the community. Since it was founded the living standards and the outlook of the whole people have been uplifted and given a solid refuge. It has succeeded in making the present habit and the future hopeful.

The school is a place for demonstration, practice, study and recreation. It is the stimulus not only of the culture, but of the commerce of the whole countryside. All ages may go to its classes. Everything having to do with local living is part of its program — farming and forestry, folk dancing and games, health and nursing, home industries and home keeping, and the marketing of the

Moreover, it has made them cooperatively concerned, with some very practical results. Through study and leadership the school has developed a team response to cooperative living. This has grown into a cooperative store, operating a retail plant.

Work of Individuals.
For this example of how to organize and guide a community living program, not only Brainerd, but the entire rural life movement is indebted to Mrs. Campbell. She did her work largely unaided and with only the expert advice achieved here by the product of her vision, personality and determination. A part of the school's support comes from the home mission of the Presbyterian church (North) and the American Missionary association, but the greatest share of the going expenses is raised by Mrs. Campbell's own efforts.

The same article will sell at community projects managed by rural people.

Speeding With Mules Legalized as Ancient Blue Laws Revoked

MT. CARMEL, Ill.—For the first time in the history of this town of 10,000, it now is legal to drive a mule "or other animal" on roads an hour on the streets and alleys or "five miles an hour around corners."

This and other ancient blue laws passed into oblivion when a new and streamlined city code went into effect.

Now the peace and quiet of Sunday afternoon may be shattered legally by youngsters playing baseball or even trying kites in the business district.

Other formerly illegal activities which now are tolerated are the unloading and loading of horses in front of any property without permission of the property owner; the playing of a game of cards for amusement within confines of the city park.

Here's One Barber Who Never Talks

SPRINGFIELD, ILL.—Contrary to the prevailing trend among barbers throughout his 12 years in the trade never has he had his customers with lengthy "chats" on politics or weather or wonder aids for random souls.

This silent barber, Bob Balford, who stands behind chair No. 3 in Jim Drew's barber shop here, has been a deaf mute since birth. But

some of his customers never are aware of his infirmity.

Barbers on either side of Balford act as interpreters for the customers, pointing out the tools desired or gesturing for the various types of scalp treatments or a facial.

George Smith, who works the chair adjacent to Balford's, rates Balford among the best barbers he has seen wield a razor in his 47 years in the trade.

Dates and strap keep the seeds coated low so these date strings are easy to eat. They stay fresh and moist for long times, if they had, in a cool jar or covered can. Use in cakes and baked loaves.

If you like cruchy, sticky candy, make these Date Drops. Cook until they keep sticky in a candy pan.

Date Drop Cookies.
(Makes 1 dozen)

- 3 eggs, beaten
- 2 teaspoons baking powder
- 1 teaspoon salt
- 1 cup shortening
- 1 cup brown sugar
- 1/2 cup butter or margarine
- 1/2 cup orange juice
- 2 tablespoons grated orange rind
- 1 egg, beaten
- 2 tablespoons milk
- 1 tablespoon orange juice
- 2 teaspoons grated orange rind
- 1 cup chopped dates

Beat four, measure and mix with baking powder, salt, shortening and sugar. Cream shortening, sugar and beat until light and fluffy. Add egg and beat. Add dry ingredients alternately with milk and orange juice to cream mixture. Stir in orange rind and dates. Drop by spoonfuls on greased baking sheet. Bake 10 to 12 minutes or until golden brown.

Date Palettes.
(Makes 24 1 1/2-inch squares)

- 3 cups chopped dates
- 1 cup nuts, chopped
- 1/2 cup vanilla
- 1/2 cup sugar
- 2 eggs, beaten
- 1 cup flour
- 2 teaspoons baking powder
- 1/2 teaspoon salt

Restored Soil, New Employment

Restoration of the soil and introduction of new types of employment are major factors in revitalizing rural economy to meet the challenge of the changing times. The growing necessity for sound rural economic planning is apparent in small towns and agricultural America, faced as they are by revolutionary changes in the pattern of living. The times bring evidence that most rural living problems can be solved. High price evidence, which has been accumulating for several years, shows the solution can be accomplished by simple, non-revolutionary means.

Rural economic problems actually come from lack of an earning opportunity. The earnings get less when the land is allowed to wear out and other employment in the neighborhood is limited. Therefore, the solution lies in restoring productivity of the soil and in providing new kinds of employment. Both these things can be done with good leadership and good planning.

Extension of rural electric lines, the trend toward decentralizing industry, new methods of farm production and land use, all are making easier the task of reviving the country communities and small towns.

Much valuable community work has been done. Some of the pioneers, who succeeded in some communities, provide examples for others to follow. One of the earliest and most highly regarded small community developments is in the southern mountains at Brassstown, N. C. There the soil has been saved and returned to fertility, and some small industries have been introduced to provide the needed opportunities to earn.

Model Rural Community. Brassstown is a model in the rural life movement. It has shown that the home and the home surroundings are the most important things in happy living. High wages are not essential if there are better compensations. Happiness cannot be bought with wages. All is well when there are jobs for all, if the work is pleasant and the home is secure.

Brasstown is a folk center. It is the home of a school of rural living, which has become the influence that shapes and guides the life of the entire community. This is the John C. Campbell Folk school, established to be a permanent and useful memorial to a devoted worker who spent his life as a teacher of mountain people. The school is the life work of Mrs. Olive D. Campbell, widow of the man for whom it was named.

This school is like nothing else in the U. S. Its pattern was the folk schools of Denmark, and Danish rural school ideas have been adapted to the needs of the Brassstown community.

Things the people make and grow. The school has a demonstration farm, a large for iron work, looms for weavers and benches for wood carvers.

Developing Wood Skills. Brassstown wood carvers are for southern mountain wares. The school has earned as much as \$1,000 in one year by their spare-time skills. But the land is first and the people are taught to protect and preserve it. "Do not neglect your farm. Caring is for spare time, and the school people give ideas, and with emphasis.

It should be made clear that it is more than the teaching of skills and methods. It is a program of ideas and attitudes, and that means the saving and the ridges for miles around homes, and proud of the land. It has given the people an "appreciation" of what they have and see.

Moreover, it has made them community conscious, with some very practical results. Through study and leadership the school has developed ideas. This has grown into a thriving producers-consumers' cooperative store, operating a retail business and a producing milk plant.

Work of Individual. For this example of how to organize and guide a community living program, not only Brassstown, but the entire rural life movement is under a lasting obligation to Mrs. Campbell. She did her work largely unaided and with only the experience and with only the help of the results achieved have been the product of her vision, personality and determination. A part of the school's support comes from the home missions of the Presbyterian church (North) and the American missionary association, but the greatest share of the going expenses is raised by Mrs. Campbell's own efforts.

The next article will tell of community projects managed by rural leaders.

Hot Macaroni. (Makes 24 dozen)
4 egg whites
1/2 teaspoon salt
1 teaspoon almond extract
1/2 cup sugar
2 cups cornflakes, slightly crushed
1 cup pecans, coarsely chopped
1 cup coconut

Add salt to whites and beat to coarse foam. Add flavornings, continuing beating until light, fluffy and glossy. Fold in cornflakes and coconut. Drop from spoon onto well-greased baking sheet. Bake in a moderate oven (300°) about 12 minutes. Remove promptly from baking sheet.

Dates and syrup keep the weight content low on these Date Drops. They stay fresh and moist for a long time. If they last, in a cookie jar or covered cookie tin. Use for snacks and lunch boxes.

If you like crunchy, fruity cookies, make these Date Drops. You'll find they keep nicely in a cookie jar.

Date Drop Cookies. (Makes 4 dozen)
2 cups flour
2 teaspoons baking powder
1/2 teaspoon ginger
1/2 teaspoon salt
1/2 cup shortening
1/2 cup brown sugar
1/2 cup bottled corn syrup (date)
1 egg, beaten
2 tablespoons milk
1 tablespoon orange juice
2 teaspoons grated orange rind
1 cup chopped dates

Sift flour, measure and sift again with baking powder, salt, cinnamon and sugar. Cream shortening, add

ground nutmeg (1/2 degree) and salt. Cut in squares and sprinkle with powdered sugar. Oatmeal Cookies.

1 cup shortening
1 egg, well beaten
1 cup flour
1/2 teaspoon baking powder
1/2 teaspoon soda
1 cup rolled oats
1 cup chopped pecans

Cream sugar, shortening and egg. Beat until well blended. Mix together dry ingredients and add to first mixture. Fold in oats and nuts. Roll dough into small balls and place on a slightly greased baking sheet. Flatten slightly and bake in an even oven at 400 degrees for about 10 minutes.

Fruit Nuggets. (Makes 4 dozen)
2 cups flour
2 teaspoons baking powder
1/2 teaspoon cinnamon
1/2 teaspoon salt
1/2 cup brown sugar
1/2 cup shortening
1 egg
1/2 teaspoon vanilla
1/2 cup currants
1/2 cup chopped mixed fruit (raisins, dried cherries, citrus fruit, etc.)
1/2 cup chopped pecans

Mix together first four ingredients. Add sugar, mix to shortening and fruit. Add unbeaten eggs and mix thoroughly. Add spices, nuts and raisins. Drop by spoon onto a greased baking sheet. Bake in a moderate oven (375 degrees) for 10 to 12 minutes.

You'll find an interesting combination of flavors in these Nut Macaronis. They're a nice, crunchy, low-calorie snack which will fill many roles in your home entertaining.

Shortbread is a rich but very delicate cookie, very delicate in texture. No flavoring is used so it must come from the butter and sugar primarily.

MT. CARMEL, ILL. — For the first time in the history of this town of 10,000, it now is legal to drive a mule "or other animal" 10 miles an hour on the streets and alleys or "five miles an hour around corners."

This and other ancient blue laws passed into oblivion when a new and streamlined city code went into effect. Now the peace and quiet of Sunday afternoons may be shattered by youngsters playing baseball or even flying kites in the business district.

Other formerly illegal activities which now are tolerated are the unlicensed and feeding of horses in front of any property without permission of the property owner; the playing of a game of cards for amusement within confines of the city park.

Leftover breads, rolls and crackers may be toasted and served with butter. If they are very hard and crumbly, have them thoroughly dry or chop them and then put through the food chopper for bread crumbs. The best way to keep lettuce is to wrap it in waxed paper and place it in the refrigerator unwashed. It is likely to turn brown if it is washed.
Soured milk and cream may be used to make gravy for meats, such as veal. Also use them for baking breads, cakes or cookies.
